

Light Night
8th October 2010

**PLAY
WITH
YOUR
CITY!**

PLAY WITH YOUR CITY!

On Friday 8th October 2010, for one night only, venues including theatres, galleries, shopping arcades, museums, prison cells and city streets will host a plethora of strange and scintillating performances, art installations, exhibitions and participatory projects and almost all of them are free!

You can expect happenings and interventions from the subtle to the spectacular including wandering harvesters, dancing in the Town Hall cells, city centre statues wrapped in winter knits, storytelling under the duvet and a performance in a swimming pool. Re-imagine the Aire as the River Styx, join in participatory theatre in the Victoria Quarter or listen to spine-tingling opera in the Library. Light Night showcases the work of artists, performers and organisations, both established and emerging. We invite you to come and enjoy this after hours celebration of Leeds' cultural wealth!

Most of the work included in Light Night is newly created and never seen before. Much of it is designed specifically for the venue in which it is shown; shedding new light on familiar buildings and locations and opening up some you may not have experienced before. The event has always been about participation and this year is no different with projects allowing you to barter with apples in an imagined city, take part in a board meeting, build a cairn, play mixed reality games or simply to meet with friends and strangers on a Friday night in Leeds.

“What we need to question is bricks, concrete, glass, our table manners, our utensils, our tools, the way we spend our time, our rhythms. To question that which seems to have ceased forever to astonish us.”

L'Infra-ordinaire by Georges Perec, 1989.

All too often we traverse the city as a matter of routine. We go to work or go shopping without really stopping to think about the space that surrounds us. Light Night offers an alternative — the chance to rediscover the city as a space for creativity and conviviality, an opportunity to play with your city and fellow citizens!

Light Night is co-ordinated by the Arts and Regeneration Team from Leeds City Council in partnership with organisations and individuals from across the city. We would like to thank everybody involved for the huge amount of time and effort they have put in. We could not do it without you! Also this year we extend our thanks to the volunteers who will be helping us on the night.

Light Night - Some Things You Need To Know

Information in the brochure is correct at time of going to print, but details may be subject to change so if there's an event you really want to see, please make sure you check details on the day at www.lightnightleeds.co.uk and arrive early to avoid disappointment.

We do use some odd, confined spaces, and some of them have limited access. If you have any special access requirements, please call us to check accessibility on 0113 2478234.

Light Night covers the whole of the city and many of the events are outside. Wear sensible shoes and a warm coat, and bring a brollie.

Toilets can be found in venues including the Town Hall, Leeds City Museum, the Carriageworks and the University. Please ask venue staff or our Light Night support workers for the nearest convenience.

Light Night is only one night a year, but all the people involved are working in our city year round. If you miss something, or see something that you like, find their website and find out what they do the rest of the time. Sign up to some forums like Leeds Visual Arts Forum and Cops and Robbers, and you will quickly find that, if you look hard enough, there's something great to see or do every night of the year in Leeds.

This brochure is available in large print, audio, Braille, and a range of community languages. Call us for enquiries or to request a copy in a different format on 0113 2478234.

How to use this guide

We have split the city into four quarters – The Academic, Civic and Retail quarters and the South Side. Projects are listed in their relevant area and are numbered across the city from North West to South East. They are not listed chronologically, so make sure you check out the timings of the projects you want to see. Use the included map to plan your route and itinerary.

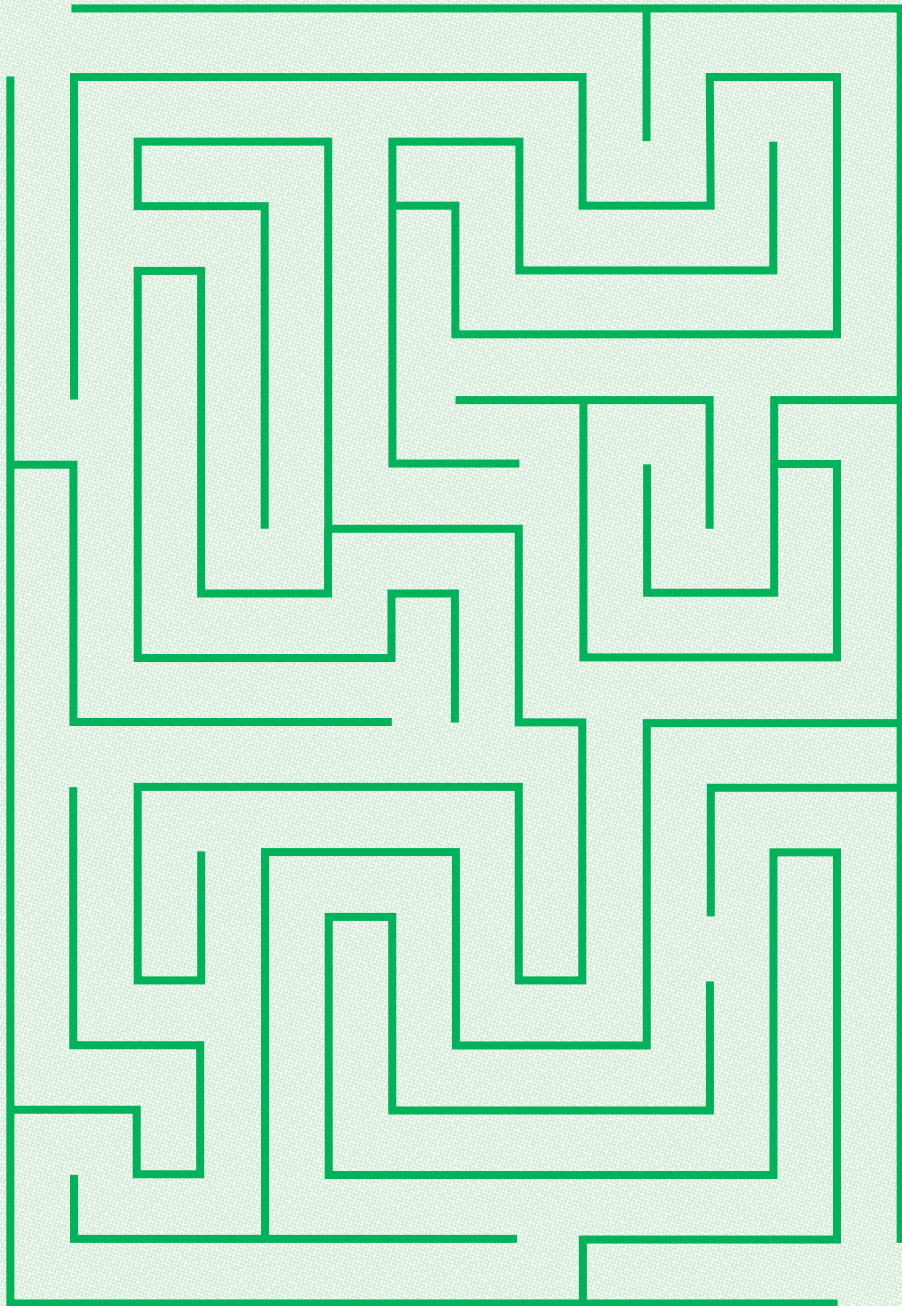

Some projects wander the city and don't have a particular location. These are listed in the first section 'Out and About.' Look out for these projects on your travels, or maybe they will come and find you!

Most of our events are free, but because some of them are in small or confined spaces, booking may be essential. We have marked these events with:

70 / Bagofti: Gary Clarke in association with Yorkshire Dance

Leeds Art Gallery, Yorkshire Bank Gallery (1st Floor), LS1 3AA
7.15–7.50pm, 8.25–9pm
Created in collaboration with dancer and choreographer Gavin Coward, 'Bagofti' is a solo show that delves deep into the bold, austere and highly expressive art work of Francis Bacon, bringing his extraordinary paintings to life through a series of striking, and ever-evolving images. Part dance, part sculpture, torturous and unnerving, 'Bagofti' pushes the boundaries of art and movement to their ultimate extremes.

71 / High Rise: Alfie Strong, Sam Morgan and Erin Hyde

Leeds Art Gallery, The Tiled Hall, LS1 3AA / 5–10pm

Victoria Gardens and The Tiled Hall
5–6pm
The Hunslet Club brings back its World Championship famous Irish Dancers for a breathtaking performance of traditional Irish dance. 8pm on Victoria Gardens and various sites from The Headrow to St George's Fields, 5–11pm
A poignant, original and funny exploration of passion and disappointment, Ennui L'Estrange shares his all-consuming love of circus and the sophisticated hopelessness of his obsession. The solitary Ringmaster wanders the streets of Leeds looking for his circus, playing with perceptions of mental ill health and performance and telling stories of Pablo Fanque's tragic trip to Leeds.

77 / Undone: Making and Unmaking in Contemporary Sculpture

Henry Moore Institute, LS1 3AH

These 'homespun' sculptures, made from readily-available materials seem to reflect a new age of austerity.

But, turning ideas of performance space and audience upside-down for one night only, five outstanding musicians play some of J.S. Bach's most beautiful solo music, including the cello sonatas, in a transformed concert hall, in which audience members decide where to sit, how to listen, and when to leave - while the performers play on. With cello, violin, guitar and harpsichord.
